## **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The prior art of records fails to disclose:

"wherein the road shape information includes coordinate data of a selected nodes and designates a target road section; executing a map matching based on the road shape information including coordinate information of the selected nodes; obtaining a road between the selected nodes by using a route search; and identifying the target road section on the digital map; wherein said steps of selecting nodes and transmitting road shape information are executed at a transmitting side, and wherein said steps of executing a map matching, obtaining a road, and identifying the target road section are executed at a receiving side."

"transmit node extracting means for intermittently selecting nodes in the road shape information out of the nodes arranged on the target road section; and transmitting means for transmitting the selected nodes of the target road section".

"A position information receiving apparatus for receiving road shape information designating a target road section on a digital map and for specifying the target road section based on the road shape information, the apparatus comprising: map matching means for performing map matching to determine positions of selected nodes included in the road shape information; and route search means for obtaining the road connecting the nodes determined to reproduce the target road section".
